My Dearest.

Let me tell you that but those two letters of yours were so nice dear I ^{was} just not going to be disappointed this time but sure will be if you don't come down for. How I just got to see you many many things to talk about. I'm almost afraid if I don't see you soon you will forget me & I can say this for sure now. The only way at present for me to see you is for you to come down here. I just can't tell you what I want to en paper (It going to rain & I have to cover up my nail just a moment) now - but the day Paul came back from Payson. He said some thing to me which if it had of been any body else there would of been a scap. He just thought you were fine said you seemed to be a very nice girl & pleasant to talk to. Then said this other that I want to see you about. Nothing dear

about yourself but in regards to our getting
married, I cant tell any more than this
until I see you I might get it down
wrong, I havent seen Paul since as he
has been out of town & wanted to see
him before I saw you & as he is coming
back today be nice & come down Fri
urses? to think I got up at 5 this a.m to get an
early start so as I could get out here early
& then not see you. As I said before tough (tuff)
& say do you know I'm sure glad I forgot
all my troubles long enough to send you
that note I did by Brown. I was in town
getting me another tire & just happen to meet
Brown. I had been trying to think up some
I'm going back to school & learn how to spell plan
to get word to you. was going to telephone to
Boardman from Room 14 when I got back
out there & what do you allow for my luck
after going in town & getting that tire &
coming out & putting it on I had got back
as far as Kirby's & blew out another & didnt
get into globe till 6 o'clock. But I didnt have
one bit of trouble today say dear while camped
along the road that day I just could help but
wish you were with me, not that I would

inconvenience you but it sure would of helped. From some reason or other I just cant keep my mind off you. Everything I do I think if you were here how much nicer it would be & try to think what you would do & say. Now you have just got to come Fri. and say dear you know that Sunday I took that ride I honestly didnt think enough about it to say anything. I wanted it to be you so bad that I didnt enjoy it. & say there is something wrong. There is our real friend. She just think you are great & I know she meant it for I explain something when I see ^{you} I know its awful to be held in such suspense. But you just cant imagine some of the things she heard for dear but I wish you were here this after noon. I dont know - It seem I havent seen you for a terrible long time & dear I hope that throat of yours is better by now I really think you are working too hard

If don't pay, I had my fire the last two
days. I'm going to try + make up for lost
time on this + we got a good start but
now my thoughts are going back to the
same things. If you were only here. Say
did I tell you about the letter I got from
my ma. I had int written her anything about
you only to say that the job was too fascinating
+ leave + she said that she didn't think the
job had any thing to do with it that there is
something more fascinating than your
work so it seems from what we have
heard + it is very strange that you have
never said any thing + that someone else
had to tell it. I guess it must to of been Evelyn.
But then all right so that it is one that is
alright + not a catholic or christian service.
now I shall write my ma a letter + tell her
what a dear girl you are. for every one
else thinks so + know she will when she
see you. See-but-I-wish-I-could-be-with-
you-right-now. I'm in an awful stew
I want to explain some things so bad
+ am just afraid to put it on paper you
might misunderstand. I am going to leave the
rest of this till tonight + will try + think of
some other things aside the one that's

worrying me.
A.M.

It dont seem as though I can think of any
thing more than that I want to see you. I had
a nice talk with Gady last night & he
heartily approves of everything & I asked him
to bring Culligan down Fri so as you can have
Co. I thought probably that was one of the reasons
for your not coming down. Gee dear I wish
you could arrange it so you could go on in
town with me Sat. Nobody will think anything
out of the way. Cant you do it. Sukey Fran has
some friends in town you could stay with & if
she haint I know someone you could. Try
very hard to do this wont you dear. It will
be a dandy trip.

Gu but there is a bunch of people down
here today & there are some of them not
very nice. I have two very nice quilts &
bring out from Globe Fri. Hope I dont have any
trouble & I'm going to try and get out here

by two I click so dont you dis appoint me
again. I dont believe I've missed going
to a picture show every night I am in
town + of course by myself all but night
before last + I went with Roy, the fellow that
use to work here. I know there are just lots of
things you need + could get if in town
I wish Harley was in town + I wanted
ask Fran to Co. you

Dont work any more than you can possibly
help dear + dont let your throat get the best
of you + think real real hard about my
suggestion have to go now as breakfast is
ready + ~~haent dreamt yet~~ by the way decent girl
until Fri With lots of love + kisses
A love yours
Bryan

Warning
Remember I haent seen you for a
terrible long time + am about twice as strong
as I was the last time I saw you + if what
I spoke of when you were down here before
before every one else you will have to excuse
me
With love
Bryan
Also I am not worrying about that thing any
more
