My Dear Go.

I received your expected letter in quite an unexpected way. Met Horley on the way out today + he gave it to me. I could understand why you didn't get my other letter so I ask Grady and he didn't mail it until this A. M. Please don't think I had forgotten to write, after this I'll mail the letters in globe so you will be sure to get them. Gee but it is tough down here by oneself. Went to a movie last night first one in two mo was good for a change + would of enjoyed myself all the more if you were there. I love better than you though. I went by myself. Really Globe isn't such an awful place. I wouldn't mind it if you were only there. But it sure is hard to stay now.

It's only could of gone though

Just speaking of Bugs I don't know whether I can finish this on account of them. However I never saw such an assortment in all my life as there is in this tent tonight so if there is any thing wrong with this you will know what to blame it on to

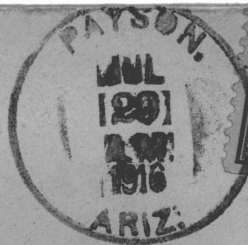

And you went to a dance and were without Fran (something you wouldn't do when I was there + went with Francis. Where is Ann? Beware as you are liable to have your life threaten as mine was. But even at that was glad to hear you are enjoying yourself + like Evelyn she is jolly to have around.

My man got caught in a thunder storm today just got here in time I had 4 pass. all in the front seat two ladies a man + a baby. some load some trip

Excuse this this time there is so many bugs in here I just can't write so will wait until I get in globe. Think of me often + remember me with lots of love from
