July 30-16

My Dear Jo.

Hope you received my other two notes ere this because I do not want you to think I have forgotten. Well Fran I saw Mr Harley last night & we took in a picture show together but wished for company we left behind. Sure wish this place were Payson. Honest I dont believe you can imagine how lonesome it is down here without you. I think I have a worse case that I thought for. I never missed one in all my life as I miss you & it seem like every thing I try to do make me think of

I was told you & Fran were
from back during the other
day. How goes it now? I think
you are going to like it.

The Well is a nice place in
the noon next to mine &
you can imagine how awful
to hear him groan every now
and then me crazy & I can
not from my mind's door
on the rail & see the poor
unfortunate standing by
the windows. I think I shall
go take a walk. Would you
like to go to a movie the afternoon
& think that is where I shall
go away a couple of hours.
I've thought of my family
but don't try and imagine
you with me but don't
make a mistake with the

of me & must you were also
to be with me. You shall
have to excuse me for writing
this but I just can't help it
and if I don't get to go by next
Fri I shall have to do something
else. I also saw Harry
'thru' G. M. we had quite a talk
he told me several things
that I had been thinking
about & find out all about it.
I do you remember my telling
you about swimming with that
bridge. Well I have had the
boat out you've ever heard
of an account of it can hardly
see my left hand. I'm very in
distant don't write the day after
I'm I do wish you were
here or I was up in Dan
out to the Verde or some
place with you

girl next to me. And after the
show shall have to go to
work on the car so I can
get out early in the morning.
You couldn't write & tell me
anything about what I asked you
up there under that tree. Don't
make me wait too long. I had
to sit down here and write to
you for as I told you before I
~~would rather put words into~~
action. So will leave this to let
you know I love you & hope
to put such words as I can't
write into action before another
sunday. Think of me once in a
while & Remember me
with love
as Ever

Bryan
