My dearest:-

Here I am home once more. Gee I would nit work down at that hotel the way Fran does for any thing. it sure is some job.

Its the funniest thing Sat night when I went down town Bob followed me I didnt know it untill after I was down I often take him down with me in the evening to keep me company. I knew I wasn't coming home Sat. night so I tried to send him

Mr Bryan Harrison

home but he would not go. he stayed down at the hotel with me all the time. he seemed to think because I was down there he had a right to stay there too. he follows me around all the time. Papa says he never saw him take to any one like he has to me, I guess he knows I like him.

I believe if I had known Evelyn was going down this trip I would have gone down in spite of every thing. but then I guess I can wait until ~~the~~ ^{the} it will soon be here now

I just this minute got your letter and I feel better.

I was beginning to think maybe our plans were not going to turn out right. I heard some real good news today. Now I wonder what you brought out to give me.

My gracious what happened to Lottie she is getting kind and my what a good little boy you are to take them all out for a ride.

Fran and I will come down Fri if it rains cats and dogs. it wont make any difference to me. It was just swell today the sun was

shining all day yesterday
it rained a little though
it is quite cold to night
so I don't think it will
rain to morrow but still
you never can tell.

Well by by dearie for
this time ~~✱~~

Lots of love & kisses

as ever your

Jv.
